

## **Commendations for CARE on its 40th anniversary**

“One of the highlights and great privileges of my life has been my association with CARE. I have spoken for CARE all over the country, have been on the Board for many years and hope to be present at Westminster Chapel on 7th October to speak for CARE. I ask all to join in prayer that the influence and effectiveness of CARE will be greater than ever in the days and years to come”.

“Servant-hearted, faithful, generous, persistent, courageous – these are some of the words that come to mind when I think of CARE. What was a tender sapling has grown into an Oak of Righteousness, bearing seed season after season. Those who have led, served, and supported it through its 40 years, have done immeasurable good”.

“In 2012, when I decided to bring a human trafficking bill before the Northern Ireland Assembly, I had a close working relationship with CARE and saw firsthand the vital and important contribution they make to society. My Bill received Royal Assent in 2015 having received cross party support. I was greatly and expertly assisted by CARE staff...My warmest congratulations goes to this extraordinary organisation as they celebrate their 40th anniversary”.

“At Home for Good we have benefited enormously from the hard work and dedication of interns participating in the CARE Leadership Programme, some of whom have gone onto join the Home for Good staff team in permanent roles such is their quality and passion. Partnering with CARE has greatly aided our mission to deliver systemic change in order to achieve our vision of finding a home for every child who needs one”.

“CARE were pioneers in bringing the Christian voice and values into the public square in the UK. I've been a supporter for many years and deeply value their work. When I look around the world, I see some of the interns from the CARE Leadership Programme being salt and light and bringing Christian values in their respective fields. Thank you CARE! God bless you and here's to the next 40 years”.

“Two words summarise for me the fruitfulness of CARE. Those words are discretion and valour. Discretion, as much of the ministry of CARE, is behind the scenes, building meaningful relationships with parliamentarians and convening private conversations with those in the public eye. The other hallmark of CARE is its public face of valour. I applaud the consistently courageous stand taken by CARE on a wide range of life and justice issues.”
