

Savanta polled 2,103 UK adults between Friday 15th and Monday 18th October 2021. Respondents were asked to what extent they agreed with the following statements:

“I am concerned that pornography is inspiring sexual violence against women and girls.”

“The government should stop websites publishing extreme pornography that portrays violence or non-consensual sex”.

The following is a breakdown for overall responses, responses by males, responses by females, and responses by region.
